FROM THE DESK OF THE PRINCIPAL

Dear Colleagues,

Today on this auspicious day of 3rd November 2021, I on behalf of the entire family of Assam Medical College, extend my sincere greeting to you all. Every year we celebrate this day to mark the foundation day of this premiere institute, rather I would like to state that 3rd November marks not only the establishment of Assam Medical College but also the beginning of the medical education in this North Easter Part of the India. This year is special for all of us we are turning 75 this year.

As we are stepping into the 75th year of our glorious existence, we are planning to celebrate it with great enthusiasm and exuberance to mark this historic moment in the history of medical science in this part of the country. The ongoing COVID-19 pandemic has imposed a great deal of restrictions in all the dimensions of our life, so many people have lost their lives, many have lost their livelihood, people are confined at their homes and waves after waves of this pandemic, lock down have

shattered the economy of the country. With so called COVID appropriate behavior people have started realizing that life must go on and therefore have tried to celebrate the life with the concept of new normal. So we have also planned to celebrate this event in a decentralized manner with a year long program in which each department will come up with their own plan of celebration in a systematic and disciplined way of course with COVID appropriate behavior. The focus will be more on infrastructure development, academic feast rather than gastronomic feast with amusements.

The light which Dr. John Berry White lit several years ago is still burning, in fact this institute has served as the mother institute for all other medical colleges of the state.

On this momentous occasion, lets dare to dream big, lets pledge to make AMC a center of excellence. Its time to take up the torches in our hands and fulfill the mission of spreading the light of knowledge, rendering the humane services to the patients. I believe with the help of my dedicated and committed faculty members, staff, students and all we shall be able to achieve this goal of becoming a center of excellence with dedicated services to mankind.

During this short tenure of less than a year, I have tried to bring the discipline and dedication among all the members of AMC family and to create the academic environment in the campus for which AMC was known for during yester years and I believe with your support we shall reach new heights in the coming years. For us this college is much more than the bricks and mortar with which it is built. Its our life line. Lets join hands to turn AMC into a centre of excellence in terms of academics, research as well as patient care.

Long Live AMC, Long Live my Alma mater.

H) VISION OF DEPARTMENT:

- The Department of Pharmacology, AMCH, has been instrumental in developing the various aspects of Pharmacology. Since the early days of Prof. Khem Singh Grewal (1947), the Department has been imparting high quality undergraduate and postgraduate medical training. Since Pharmacology is the first subject which gives a glimpse to the medical students regarding medicines and prescriptions, the Department is instrumental in shaping and training the young minds on the various aspects of drug use. Also the Department teaches various skills to the students like the ways of drug administration to a patient etc., which ultimately helps them in becoming successful doctors in future. The Department is also involved in postgraduate training which is specially concerned with research work. All the aspects of post graduate pharmacology are being emphasized upon as a result of which many alumni of the Department are shining in their respective fields of academics, drug discovery and research and drug safety.

We also have a Pharmacovigilance centre at our Department which deals with Adverse Drug Reaction (ADR) monitoring and reporting.

Our department seeks to enhance the efforts for benefit of students, patients and the society.

Scientific Assistant -
Lab. Attendant - Shri. Jatin Nath.
Cleaner: - Shri. Gurdayal Singh.

The Regional Centre BRIT. Department of Atomic Energy Govt. of India located at Assam Medical College & Hospital is rendering Radioimmunoassay and Immunoradiometric assay service for the benefit of more than 10,000 patients annually. The centre is rendering services to the referred patients of Assam Medical College, OIL Hospital, ONGC Hospital, Air force hospital Jorhat, RRL Hospital Jorhat, Rly Hospital Dibrugarh & Maligaon, Tea garden hospital & also patients from District Jail, BVFCL Namrup.

The Radiopharmaceuticals products produce and supplied by BRIT are extensively used by the Regional Centre Dibrugarh, for diagnosis & investigation of various diseases. Centre provides free services to the needy patients who are below the poverty line, and also to the students and nursing staffs referred by the institute. The indigenous production and supply of the diagnostic kit by BRIT is an important and most significant societal contribution by the Department of Atomic Energy to improve health care and human welfare for the North east patients.

Regional centre is now well equipped with another one Gamma Scintillation Counter (12-well counting provision) supplied by Stratec Biomedical System Germany which was purchased & installed in this centre. It is using for Radio assay counting of Radioisotope in routine assay of RIA & IRMA technique.

The Centre is also providing necessary technical support to the Research worker of most of the different departments of Assam Medical College & Hospital, to work in their field of interest for post graduate degree & also collaborating with the Universities for technical help in R& D work.

**ANNUAL ACTION PLAN FOR 2021-2022**

Action plan for the next year, is to set up Urea Breath test for H. Pylori for the prompt and non invasive Diagnosis, of Helicobacter Pylori infection, this is under process by BRIT.

HOSPITAL BASED CANCER REGISTRY

Assam Medical College & Hospital, Dibrugarh

In 1981 the Indian Council of Medical Research initiated the National Cancer Registry Programme (NCRP) and commenced a network of cancer registries across the country that started functioning from January 1982. Three hospital based cancer registries (HBCR) were commenced at Assam Medical College, Dibrugarh; Regional Cancer Centre, Thiruvananthapuram; and Post Graduate Institute of Medical Education and Research, Chandigarh. In order to extend the assessment of cancer patient care, HBCRs were also started in 1984 at Kidwai Memorial Institute of Oncology, Bangalore; Cancer Institute (WIA),

Chennai and Tata Memorial Hospital, Mumbai. Data collection also commenced from 1 January 1982.

Dr. B.D. Baruah, Professor, Dept of Pathology at that time, played pivotal role in establishing the HBCR in AMCH. Dr. N. Zaman was Principal of AMCH at that time.

During the long tenure the HBCR Dibrugarh has been able to generate authentic data on the burden, the common cancers, its magnitude, method of diagnosis and treatment modalities of cancer patients treated at the hospital. The registry had successfully completed two epidemiological case-control studies during 1988-91 on cancer pharynx and cancer Oesophagus and identified a number of potential risk factors particularly associated with the practices of the indigenous populations of the region.

During this long operational period many more projects on cancer had been sanctioned by the ICMR of which some have already been completed and some are still continuing. Notable among those are were- Case-control study on Nasopharyngeal cancer during 1985-1987, case control study on cancer pharynx and oesophagus during 1988-1990, Role of Tobacco and Pesticides in the causation of the cancers of Head & Neck, Oesophagus, Stomach, Breast and Lymphoma, The Development of an Atlas of Cancer in India, 2001, Patterns of Care and Survival Studies' of Cancers of Head & Neck, Breast and Cervix, 2007.

The findings of project of Development of an Atlas of Cancer in India under WHO was published as two-year report for 2001 and 2002. It provided many interesting findings. As a fall out of this the ICMR sanctioned a few more scientifically significant and clinically useful projects for N.E Region.

North-Eastern Regional Cancer Registry (NERCR) has been commenced in six areas at Guwahati, **Dibrugarh** and Silchar in Assam, Aizawl in Mizoram, Imphal in Manipur and Gangtok in Sikkim. Under NERCR, Population Based Cancer Registry

(PBCR) covering the district of Dibrugarh was started at AMCH in 2003 and it demonstrated the true incidence and burden of cancer in the district. The PBCR in 2019 expanded to cover the geographical area of entire Upper Assam by NCDIR (National Centre for Disease Informatics and Research).

Several popular articles on the pattern, causative factors of common cancers, high risk groups etc. have been published both in English and vernacular languages in the regional newspapers for the awareness of both the medical personnel and common populace by HBCR Dibrugarh. The registry staff has presented several scientific papers in various national and international conferences, seminars and meetings and have also published articles in indexed journals. The staff have also participated as resource persons in several WHO, NCRP and UGC sponsored workshops.

Moreover the registry extended expertise and guidance to a large number of P.G students in the matters of planning, designing and statistical analysis. HBCR Dibrugarh is very much involved in human resource development in cancer epidemiology.

The staff of the registry were regularised by Govt of Assam in 2009. Most of them have retired and the HBCR is working with minimal manpower. Recently NCDIR has approved a project titled "*Hospital Based Cancer Registries and Pattern of Care and Survival Studies on Cancer Breast, Cancer Cervix and Head & Neck Cancers under Regional Cancer Centre*" for AMCH to support the registry with additional manpower. Principal Investigator of the project: Dr. Aditya Sharma, Professor & Head, Pathology, AMCH.
